Materials (Detailed)

Yarn: <https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

- Worsted weight (#4) yarn for structure
- Optional metallic yarn for edging (adds shine ✨)
- Multiple colors depending on your theme

Tools:

- Crochet hook: Size H/5.0 mm (adjust if needed)
- Yarn needle (for sewing and finishing)
- Scissors
- Stitch markers (VERY helpful for long chains)

Extras:

- Fiberfill stuffing (for amigurumi)
- Beads (small to medium size)
- Key ring or metal ring (for hanging)
- Decorative charms (moon, shells, skulls, lightning bolts, etc.)
- Sewing thread or thin yarn (for attaching beads/charms)

Abbreviations (US Terms)

- CH = Chain
- SC = Single Crochet
- HDC = Half Double Crochet
- DC = Double Crochet
- SL ST = Slip Stitch
- MR = Magic Ring
- INC = Increase (2 stitches in same stitch)
- DEC = Decrease

Step 1: Foundation Chain (VERY IMPORTANT)

This is what creates the spiral shape, so do this carefully.

- Make a slip knot
- Chain **200 stitches (CH 200)**

Tips: <https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

- Do NOT make your chain too tight
- Try to keep all chains the same size
- If you're a beginner: go up one hook size just for the chain

👉 Place stitch markers every 25–50 stitches so you don't lose count

Step 2: Row 2 – Start Building the Curve

You will now begin shaping the spiral.

- In the **second chain from hook**, do:
 - 1 SC
- In the next chain:
 - 1 HDC

Now repeat this pattern across:

- (SC, HDC) in each chain across

What this does:

- Alternating stitch heights starts bending the piece slightly

Step 3: Row 3 – Create the Spiral Effect

This is the most important shaping row.

In EACH stitch across:

- Work **HDC + DC in the SAME stitch**

👉 That means every stitch becomes an increase

Result: <https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

- The fabric expands and naturally curls into a spiral

💡 If your piece is not curling:

- Your tension may be too tight
- Or you accidentally skipped increases

Step 4: Row 4 – Stabilize the Edge

- Work **SC evenly across the edge**
- Aim for about **15 stitches per section/curve**

Important:

- Do NOT increase here
- This row locks the shape in place

✨ Step 5: Decorative Edging

Now we refine the look.

- Continue SC around the entire spiral edge
- Optional:
 - Switch to metallic yarn for a decorative border
- Add occasional SL ST stitches for texture

Tip: <https://handcrafted.craftsforlove.com/> SEE THE BEST PATTERNS

- Keep edging loose enough so it doesn't flatten your spiral

🔗 Step 6: Create Hanging Loop

At the top of your spiral:

- Attach yarn
- Chain **10–15 stitches**
- Slip stitch into a **metal ring or key ring**
- Fasten off securely

👉 Pull tight and knot well—this supports the whole piece

🎈 Step 7: Adding Beads

You will attach beads along the spiral.

Method 1 (After Crochet):

- Thread needle with yarn/thread
- Pass through bead
- Attach to spiral with knot

Method 2 (During Attachment):

- Tie bead onto hanging threads

👉 Space beads evenly or randomly depending on theme
