

Crochet Flower Motif Baseball Cap

Step-by-Step Tutorial (US Terms)

From Pattern to Finished Project

FULL PATTERN DIAGRAM

MATERIALS

- Cotton yarn (medium weight #4)
Approx. 100–150 g (varies by size)
- Hook: 2.5 – 3.5 mm
(US C/2 – E/4)
- Scissors
- Yarn needle
- Stitch marker (optional)
- Beads (2 for ties)
- Wire (optional, for flower center)

COLOR KEY

- Main yarn (head)
- Brim color (visor)
- Flower color (blue)
- Leaf color (green)
- Accent color (cream/white)

US ABBREVIATIONS

- ch = chain
- sc = single crochet
- hdc = half double crochet
- dc = double crochet
- sl st = slip stitch
- tr = treble crochet
- rep = repeat
- () = work stitches in same stitch or space

KEY TECHNIQUES (US TERMS)

- ✓ Magic ring
- ✓ Slip stitch
- ✓ Increasing / Decreasing
- ✓ Working in the round
- ✓ Joining motifs
- ✓ Sewing pieces
- ✓ Bead application

1. CROCHET FLOWER MOTIF (B) – Make 15 (or as needed)

LEAF (Make 10–12)

2. BRIM (VISOR) – Make 1

3. JOIN MOTIFS TO CAP

4. ASSEMBLE THE CAP

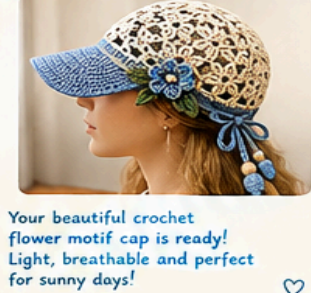

5. ADD THE FLOWER & LEAVES

6. MAKE THE TIES (Optional)

7. FINAL RESULT

SCHEMATIC OVERVIEW

FINISHED SIZE (approx.)

- Head circumference: 21 cm (adjust to your size)
- Cap height: 15 cm
- Visor length: 7 cm
- Flower size: 4–5 cm diameter
- Leaf size: 3–4 cm length

Enjoy your crochet creations!

STITCH GUIDE (US TERMS) – How to do the main stitches

TIPS FOR SUCCESS

- ✓ Use cotton yarn for a light and breathable cap.
- ✓ Keep your tension consistent.
- ✓ Use a stitch marker to mark rounds.
- ✓ Adjust the number of motifs for a larger or smaller cap.
- ✓ Block your work for a better shape.

Happy Crocheting!

Crochet Flower Motif Baseball Cap

Complete Step-by-Step Tutorial — US Crochet Terms

This tutorial is a detailed written version based on the supplied Crochet Flower Motif Baseball Cap graphic. It follows the construction, colors, measurements, flower motifs, leaves, visor, ties, beads, and assembly shown in the tutorial.

The pattern uses US crochet terminology throughout.

The finished cap is designed as a lightweight, openwork baseball-style cap with a floral crown, a crocheted visor, decorative flower and leaves, and optional beaded ties.

Materials

Yarn

Use medium-weight #4 cotton yarn.

The color scheme shown in the tutorial is:

- Main color: cream, off-white, or natural
- Visor: blue
- Flower: blue, using one or more shades for the layered effect
- Leaves: green
- Accent: cream/white
- Optional center: contrasting color for the flower center

The graphic estimates approximately 100–150 g of yarn, depending on the size, tension, and amount of decorative work.

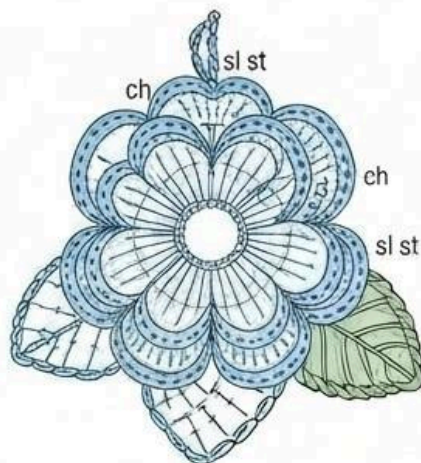

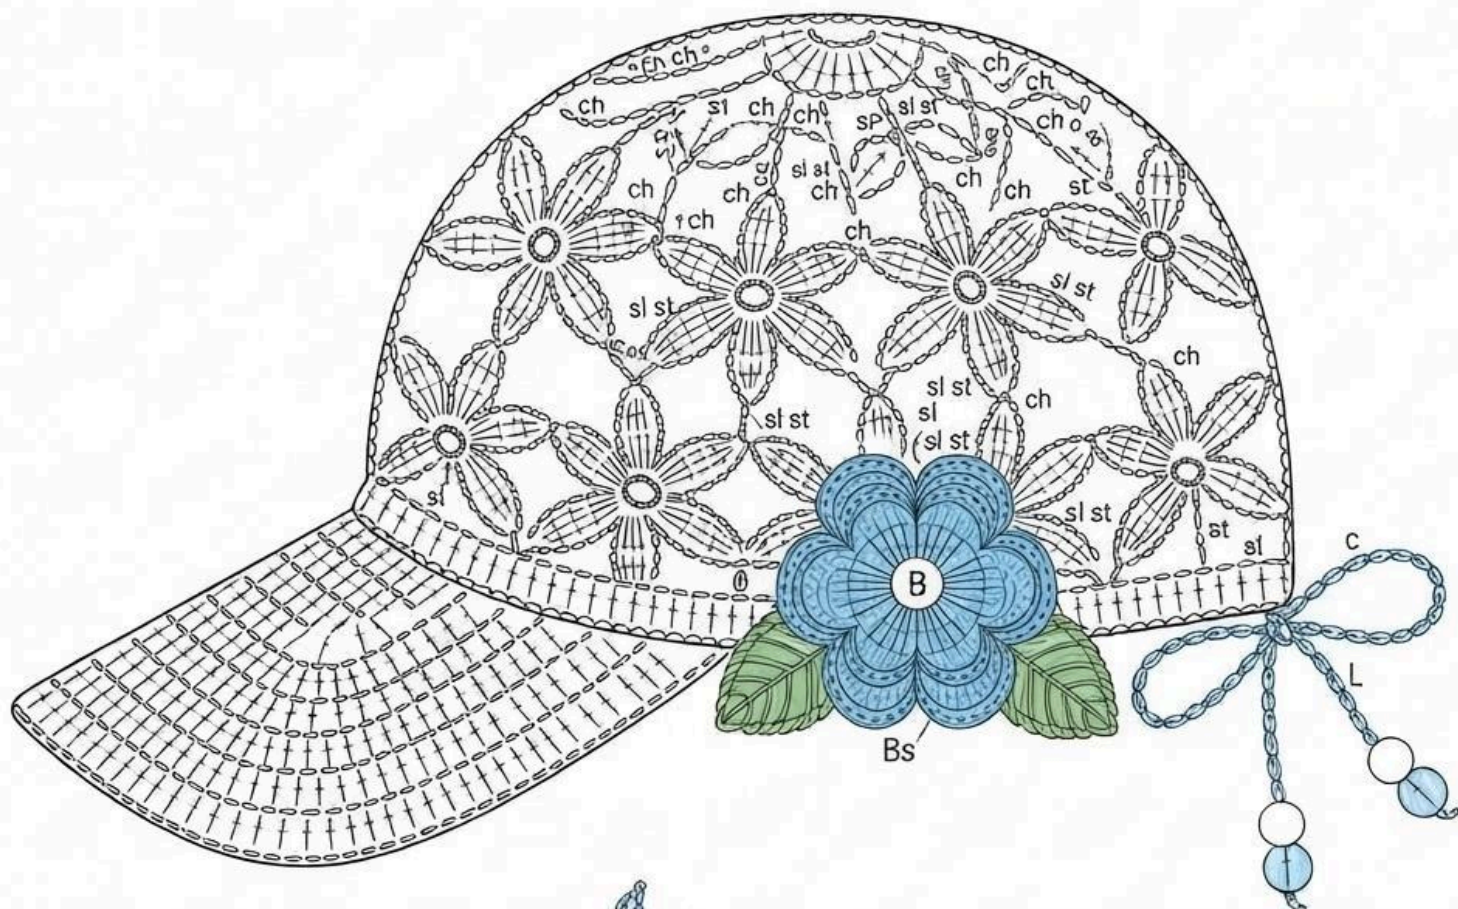

Crochet Hook

Use a 2.5–3.5 mm crochet hook.

The graphic gives approximately US C-2 to E-4.

For a firm visor, stay toward the smaller end of the range. For a softer, more flexible cap, a slightly larger hook can be used.

US Crochet Stitch Pattern for Flower Motif Baseball Cap

Legend Table	
US Crochet Stitches	
CH	= Chain
SC	= Single Crochet
DC	= Double Crochet
SL ST	= Slip Stitch
TR	= Treble Crochet
MP	= Magic Ring/Loop
B	= Bead (attached with wire or yarn)
	= Leaf
	= Flower Motif

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

Other Supplies

You will also need:

- Yarn needle/tapestry needle
- Scissors
- Stitch markers
- Optional small amount of wire for the flower center
- Optional beads for the hanging ties
- Optional lightweight visor stiffener
- Measuring tape

US Crochet Abbreviations

Abbreviation	US meaning
ch	Chain
sc	Single crochet
hdc	Half double crochet
dc	Double crochet
tr	Treble crochet
sl st	Slip stitch
MR	Magic ring / magic loop
st	Stitch
sts	Stitches
rep	Repeat

inc

Increase

dec

Decrease

Important: This tutorial uses US terms. For example, a US sc is not the same stitch called sc in UK terminology.

Finished Size and Proportions

The supplied graphic gives these approximate measurements:

- Head circumference: approximately 21 cm as printed in the graphic
- Cap height: approximately 15 cm
- Visor length: approximately 7 cm
- Flower diameter: approximately 4–5 cm
- Leaf length: approximately 3–4 cm

Because the printed circumference in the graphic is unusually small for a typical adult head, treat the measurements as construction references rather than mandatory measurements. For an adult in the United States, measure the intended wearer's head and adjust the number and arrangement of motifs so the crown reaches the required circumference.

The most important measurement is the actual circumference of the finished crown.

Understanding the Construction

The cap is made from several separate components:

1. Crochet flower motifs
2. Join the flower motifs into the openwork crown
3. Crochet the visor
4. Make the leaves
5. Make the decorative flower
6. Add optional side ties
7. Add beads
8. Sew everything together
9. Shape and finish the cap

The supplied tutorial recommends making 15 flower motifs, or as many as needed, and then joining them to create the crown.

Step 1: Make the Flower Motifs

The flower motif is the main building block of the cap.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

The graphic shows a small floral motif made from a central ring and multiple petal rounds. Make approximately 15 motifs for the crown, but do not be afraid to make more or fewer if your head measurement requires it.

Work each motif separately and weave in the ends as you go, or leave the joining tails until the crown has been assembled.

Round 1 — Create the Center

Begin with the main cream or natural yarn.

1. Make a magic ring.
2. Chain 3. This counts as your first dc.
3. Work 11 dc into the magic ring.
4. Pull the magic ring closed.
5. Join to the top of the beginning ch-3 with a sl st.

You now have a circular center containing 12 double-crochet positions.

Do not pull the center so tightly that the stitches become distorted. The center needs to remain flat because the following rounds are built around it.

Round 2 — Begin the Petal Structure

Attach the blue yarn, as shown in the tutorial.

The flower diagram is the most important reference for this round because the petals are arranged around the center rather than simply worked as a solid circle.

Work the indicated chain and double-crochet combinations around the center, creating the individual petal sections shown in the chart.

When the round is complete:

1. Check that all petals are evenly distributed.
2. Join the round with a sl st.
3. Do not pull the joining stitch too tightly.

The flower should begin to look like the blue, scalloped flower shown in the tutorial.

Round 3 — Add the Next Petal Layer

Change to the next blue shade if you want the layered appearance shown in the graphic.

Work around the previous round following the petal repeat shown in the flower chart.

The general construction is:

- Work into the designated spaces from the previous round.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

- Build the petal with the indicated crochet stitches.
- Separate the petals with the chain/slip-stitch sections shown in the diagram.
- Repeat around the entire flower.
- Join with a sl st.

Keep the stitches relatively relaxed. Tight stitches can make the petals curl excessively.

Round 4 — Add the Outer Petal Layer

Change color again if desired.

Work the final round around the flower, following the outer petal shapes in the supplied diagram.

The outer petals should be noticeably larger and fuller than the center petals.

When you reach the beginning:

1. Join with a sl st.
2. Cut the yarn.
3. Pull the tail through.
4. Weave the end securely through the back of the motif.

Optional Flower Center Bead

The tutorial shows an optional bead being added to the center.

To do this:

1. Choose a small decorative bead.
2. Thread a yarn needle with a matching yarn tail.
3. Bring the needle from the back of the flower through the center.
4. Pass the yarn through the bead.
5. Return the needle through the flower.
6. Secure the yarn firmly on the back.
7. Weave in the remaining end.

The bead should sit in the center without pulling the flower inward.

Step 2: Make Approximately 15 Crown Motifs

Repeat the flower motif until you have enough pieces to form the crown.

The supplied tutorial specifically indicates:

Make 15 flower motifs, or as needed.

Lay the motifs on a flat surface as you work.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

This is important because the final size depends on how tightly the motifs are joined and how large each motif becomes with your individual crochet tension.

Before joining everything permanently, arrange the flowers into the approximate shape of a cap.

You want:

- A rounded crown
- Even spacing
- No large holes between motifs
- The lower edge to remain reasonably even
- Enough room at the front for the visor

Step 3: Join the Flower Motifs

Once you have enough motifs, begin assembling the crown.

The supplied diagram shows the motifs connected at their chain spaces and edges.

There are two practical ways to make the joins.

Method A — Slip-Stitch Joining

Place two motifs next to each other with their right sides facing upward.

Insert your hook through the corresponding loops or chain spaces of both motifs.

1. Yarn over.
2. Pull through both motifs.
3. Continue with slip stitches through the corresponding joining points.
4. Repeat at the next connection point.

This creates a neat, relatively flat connection.

Method B — Whip Stitch

Alternatively, use a yarn needle.

1. Place two motifs together.
2. Match the corresponding chain spaces.
3. Insert the needle through the outer loops of both motifs.
4. Pull the yarn through.
5. Repeat along the joining points.
6. Keep the tension even.

Do not sew the motifs together too tightly. The crown needs enough flexibility to curve around the head.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

Shape the Crown as You Join

Do not wait until every motif has been joined before checking the shape.

After attaching several motifs:

1. Place the work over a bowl, mannequin head, or the intended wearer's head.
2. Check the circumference.
3. Check the height.
4. Make sure the front opening is centered.
5. Check that the bottom edge does not twist.

The finished crown should gradually form a dome.

Step 4: Create the Lower Edge of the Crown

The chart shows the lower edge being finished with additional chain and stitch work.

Work around the lower perimeter of the joined motifs using the stitches indicated in the main diagram.

The purpose of this edge is to:

- Stabilize the crown
- Give the visor a solid attachment area
- Even out the lower edge
- Prepare the cap for the brim

As you work, place stitch markers at the center front and center back.

These markers make it much easier to keep the visor centered later.

Step 5: Crochet the Visor

The visor is worked separately in the tutorial and is shown in blue.

The supplied instructions begin with a chain of 15.

Foundation Chain

Using the blue yarn:

1. Make a slip knot.
2. Ch 15.
3. Turn.
4. Skip the first chain.
5. Work 14 sc across.

You now have the first row of the visor.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

The visor is intentionally compact because it will be shaped into the curved baseball-cap brim.

Step 6: Work the Visor Rows

Row 1

Work:

Ch 15, skip 1 ch, 14 sc.

Turn.

Row 2

Work:

14 sc across.

Turn.

Keep your tension consistent.

The visor should become a dense piece of fabric rather than an open lace section.

Row 3

The tutorial then introduces taller stitches toward the center of the brim to create shaping.

Work the stitch sequence shown in the visor diagram, using the combination of:

- sc
- hdc
- dc

The taller stitches are concentrated toward the central area, while the shorter stitches help maintain the shape around the sides.

Continue following the visor diagram for the remaining rows, increasing toward the outer edges as indicated.

The important visual goal is a shallow curved half-moon shape, not a straight rectangle.

Step 7: Shape the Visor

As the visor grows, lay it flat on a table.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

It should resemble a curved semicircle or shallow crescent.

If it is completely straight, your tension or increases may need adjustment.

If it curls dramatically upward, loosen your tension slightly.

If the visor is too floppy, you can add a lightweight piece of flexible visor material after crocheting.

Do not use anything sharp or rigid that could become uncomfortable while wearing the cap.

Step 8: Attach the Visor to the Crown

Find the center-front marker on the crown.

Find the center of the visor.

Place the center of the visor directly against the center front of the crown.

Pin or clip it in place.

Make sure the visor extends evenly to both sides.

Using blue yarn and a yarn needle, sew the visor securely to the lower edge of the crown.

Work through several points across the attachment edge rather than securing only the two ends.

This distributes the tension and prevents the visor from pulling away from the crown.

Once attached, check the cap from the front.

The visor should project forward and slightly downward like a baseball cap.

Step 9: Make the Leaves

The graphic includes green leaves measuring approximately 3–4 cm long.

Make 10–12 leaves, as indicated in the tutorial.

The leaves are worked as individual pieces.

Leaf — Starting Chain

Using green yarn:

1. Make a slip knot.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

2. Ch 10.
3. Turn.

The chain forms the central foundation of the leaf.

First Side of the Leaf

Work back along the chain using the stitch sequence shown in the leaf diagram.

The tutorial uses a combination of:

- sc
- hdc
- dc
- tr

The stitches gradually increase toward the middle of the leaf and then decrease again toward the tip.

This creates the pointed leaf shape.

Work the stitches into the chain so that the finished piece remains flat.

Second Side

After reaching the end of the foundation chain:

1. Continue around the opposite side of the chain.
2. Repeat the corresponding stitch sequence.
3. Shape the second side to mirror the first.
4. Join at the starting point with a sl st.

Finish the Leaf

Fasten off and weave in the end.

If desired, use the yarn needle to add a small central vein by sewing a line from the base toward the tip.

Make approximately 10–12 leaves.

Step 10: Make the Decorative Flower

The large decorative flower is separate from the small flower motifs used for the crown.

The tutorial labels this flower Flower Motif (B).

It is placed on the side of the finished cap, near the visor.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

The finished flower is approximately 4–5 cm in diameter.

Center

Begin with a magic ring.

Work the center according to the flower chart, using the same US stitch terminology as the crown motifs.

The center should remain relatively compact.

Inner Petals

Using the lighter or contrasting blue:

1. Attach the yarn.
2. Work the chain spaces and stitches indicated by the flower diagram.
3. Build each inner petal individually.
4. Repeat around the center.
5. Join with a slip stitch.

Outer Petals

Change to the darker blue if you want the two-tone appearance shown in the tutorial.

Work the outer petal round around the inner petals.

Keep the outer petals evenly spaced.

After completing the final petal:

1. Join with a sl st.
2. Fasten off.
3. Weave in the end.

Flower Center

Add a bead if desired.

The graphic specifically shows a bead option for the flower center.

Secure the bead firmly enough that it cannot easily come loose during normal use.

Step 11: Position the Leaves

Arrange the green leaves behind the large flower.

The supplied finished design shows leaves extending outward from underneath the flower.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

A good arrangement is:

- One leaf angled upward
- One leaf angled downward
- Additional leaves extending sideways

Do not sew them immediately.

First place the flower and leaves together on the side of the cap and experiment with the arrangement.

When you are satisfied:

1. Pin the leaves temporarily.
2. Place the flower on top.
3. Check the cap from the front.
4. Check it from the side.
5. Make sure the decoration does not interfere with the visor.

Step 12: Sew the Flower and Leaves to the Cap

Use a yarn needle and matching yarn.

Attach the Leaves

Sew the base of each leaf securely to the crown.

Do not sew around the entire perimeter of the leaf.

A few secure stitches at the base usually allow the leaf to retain a natural shape.

Attach the Flower

Place the large blue flower over the leaf bases.

Sew through the center and several points around the flower.

Secure it particularly well at the center because this is the area most likely to be pulled when the cap is handled.

Weave all ends into the inside of the cap.

Step 13: Make the Optional Side Ties

The tutorial shows decorative chains extending from the side of the cap.

These are optional.

They are made with blue yarn and decorated with beads.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

Make the Chains

Cut or crochet two strands approximately 50 cm long, as indicated in the tutorial.

If crocheting the strands:

1. Make a slip knot.
2. Chain to the desired length.
3. Fasten off.
4. Make a second matching strand.

The finished ties should be approximately equal in length.

Attach the Ties

Attach the two strands to the side of the cap near the flower decoration.

The graphic shows them hanging downward and outward from the side.

Secure the attachment point with several stitches.

Step 14: Add the Beads

The tutorial shows beads attached near the ends of the hanging chains.

You can use:

- One bead on each strand
- Two beads on each strand
- A combination of larger and smaller beads

To attach a bead:

1. Thread the yarn through the bead.
2. Slide it toward the end of the chain.
3. Make a secure knot or crochet loop below the bead.
4. Weave the remaining yarn back into the chain.
5. Trim the excess.

Make sure the beads are firmly attached before wearing the cap.

Step 15: Final Assembly

Now inspect the complete cap.

Check all of the following:

- The crown forms a smooth dome.
- The flower motifs are securely joined.
- The lower edge is even.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

- The visor is centered.
- The visor is firmly attached.
- The visor curves forward.
- The large flower is secure.
- The leaves are firmly attached.
- The decorative ties are secure.
- The beads cannot easily come loose.
- All yarn ends are woven in.

Step 16: Shape the Finished Cap

Place the cap over a rounded object approximately the size of the intended head.

A bowl, balloon, mannequin head, or hat form can work.

Gently arrange the crown into its final shape.

Pay particular attention to:

- The top of the crown
- The sides
- The back
- The visor
- The lower edge

Do not stretch the lace motifs aggressively.

The open spaces are part of the design and should remain open.

Step 17: Adjust the Fit

Try the cap on before making the final finishing touches.

If the crown is too small:

- Add another motif section if possible.
- Use a slightly larger hook for future motifs.
- Loosen your joining tension.
- Increase the number of motifs.

If the crown is too large:

- Remove a motif section.
- Join the motifs more closely.
- Use a slightly smaller hook for future work.

For a customized adult size, always prioritize the actual head measurement over the printed dimensions in the graphic.

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

Measure around the head where the cap will sit, passing the measuring tape above the eyebrows and around the widest part of the head.

Step 18: Check the Visor

The visor is one of the most important structural elements.

It should:

- Sit centered on the forehead
- Extend forward
- Have a gentle curve
- Be firmly attached to the crown
- Hold its shape without being excessively stiff

If the brim is too soft, insert a lightweight, flexible visor insert between two layers of crochet, provided it can be enclosed securely and cannot poke through the stitches.

Step 19: Weave in All Ends

Use a yarn needle to hide every remaining yarn tail.

For each end:

1. Thread the tail onto the needle.
2. Weave it through several stitches on the wrong side.
3. Change direction.
4. Weave it back through a few stitches.
5. Pull gently.
6. Trim the excess yarn.

Avoid cutting yarn immediately after a knot. The tail should be woven into the fabric so the finished cap remains secure after handling and washing.

Step 20: Final Finishing

Give the entire cap one final inspection.

Look for:

- Loose joins
- Unsecured beads
- Loose flower petals
- Leaves that need another stitch
- Uneven motif connections
- Loose visor stitches
- Exposed yarn tails

Correct these before wearing the cap.

Complete Construction at a Glance

The project can be completed in this order:

1. Gather #4 cotton yarn and a 2.5–3.5 mm hook.
2. Make the small flower motifs.
3. Make approximately 15 motifs, or enough for the desired circumference.
4. Arrange the motifs into the dome-shaped crown.
5. Join the motifs with slip stitches or whip stitches.
6. Stabilize the lower crown edge.
7. Crochet the blue visor.
8. Shape the visor into a shallow curved brim.
9. Attach the visor to the center front of the crown.
10. Make approximately 10–12 green leaves.
11. Make the larger blue decorative flower.
12. Add the optional center bead.
13. Arrange the leaves behind the flower.
14. Sew the flower and leaves to the side of the cap.
15. Make the optional approximately 50 cm decorative ties.
16. Attach the ties to the side.
17. Add the decorative beads.
18. Shape the entire cap.
19. Check the fit.
20. Secure and weave in every remaining end.

Color Layout From the Tutorial

For a look closely matching the supplied graphic, use:

Cream/Natural:

Main crown motifs and accent details.

Blue:

Visor, decorative flower, flower motifs and side ties.

Green:

Leaves.

White/Cream Accent:

Flower center and contrast details.

The original graphic also demonstrates using several shades of blue in the flower so that the petals have a layered, dimensional appearance.

Tips for Getting the Same Look

Keep Your Tension Consistent

The crown depends on individual motifs fitting together correctly.

If some flowers are significantly larger than others, the cap may become distorted.

Make your first motif a reference and try to keep all subsequent motifs approximately the same size.

Join Motifs Without Over-Tightening

The crown needs to curve.

If every join is pulled tightly, the fabric will become stiff and may not form the rounded dome shown in the graphic.

Keep the Visor Denser Than the Crown

The crown is intentionally open and decorative.

The visor should be much denser because it needs to hold its shape.

Check the Shape Frequently

Do not wait until the final assembly to discover that the cap is too small.

After joining several motifs, test the crown on the intended head size.

Use Stitch Markers

Place markers at:

- Center front
- Center back
- Optional side points

This makes it much easier to position the visor and decorative flower accurately.

Secure the Beads Carefully

Because the beads are small, make sure every bead is securely attached.

If the finished cap is intended for a young child, omit small detachable beads and other small decorative pieces.

Final Result

<https://handcrafted.craftsforlove.com/> **SEE THE BEST PATTERNS**

When finished, you should have a lightweight crocheted floral baseball cap with:

- An openwork flower-motif crown
- A structured blue crochet visor
- A large blue side flower
- Multiple green leaves
- Optional beaded hanging ties
- Optional decorative beads
- A soft, handmade summer-cap appearance

The overall construction stays faithful to the supplied tutorial: individual floral motifs form the crown, the visor is made separately, the leaves and large flower are added afterward, and the optional beaded ties provide the final decorative detail.
